

Home Service Plan Program

Peace of Mind, Savings, and Much More

Priority Service

Should you need a plumber - **you will be given top priority**. Our technicians are electronically dispatched to ensure prompt response time. To make certain we meet your needs, we maintain a complete, computerized service history on your equipment.

Planned Maintenance Inspection

Your **Plumbing Plan** includes one planned maintenance inspection per year. We will perform a total plumbing integrity inspection to ensure all your plumbing fixtures, drains, shut off valves, toilets, water heater, and more are in proper working condition. We will inspect all exposed plumbing and advise you of any needed repairs. Potential problems are spotted before they cause damage and expense to save you time and money. Periodic maintenance ensures system's safety and performance and reduces the chance of an emergency.

We will check the following at your maintenance visit:

- *Visual inspection of all exposed plumbing*
- *Check operation of all toilets*
- *Check household water pressure*
- *Locate and tag all emergency water shut-off valves*
- *Thorough inspection of water heater & maintenance flush*

Discounted Repairs

Our **Plumbing Plan** offers customers a **20% discount** on all plumbing repairs during your plan year. All repair work will be quoted, in writing, prior to being scheduled. Our goal is to catch and correct minor problems before they become major repairs.

Quality

All of our plumbers are required to attend at least 40 hours per year of continuing education. In reality, most Atlas Home Service's plumbers actually complete over 100 hours of training per year. Every truck in our fleet is fully stocked with parts, tools, and equipment to service all of your plumbing needs quickly and efficiently.

Transferrable

This Home Service Plan Program is transferrable when you sell your home!

Contract terms and conditions apply. Please contact our office for more information.
